Petitions In For Major Organizations; Candidates To Be Introduced In Chapel

It's election time again on the GSCW campus. Petitions for the presidents of the three major organizations have been turned in and these girls have been selected: For College Government Asso-

Frosh Tell Why They Chose GSCW As Their College

If asked why you came to GS-CW rather than to another college, most of you would probably look blank for a moment, and then come up with two or three very good reasons. Its highly doubtful that any one of you would think lize this and be a part of the "Y" white pajamas included in the of all the different influences pos- in all its work. sible for the prospective Jessie.

To find out the greatest area of influence, a survey was recently taken by the public relations department of the Freshmen Class. Each girl was asked to check the degree of importance of each influence listed. There were four choices — of no importance, of slight importance, of moderate importance, of great importance in influencing the student to chose GSCW for her college.

The influences were divided into three groups, publicity, including newspaper stories, the GSCW catalog, student performances; personal contact influences, including teachers, alumnae, college representatives, visit to GSCW campus; and special advantages of GSCW, which included guidance, the campus.

The one factor that influenced es. with the greatest importance the largest number of girls was the scholastic standing of GSCW was the strongest influence upon them, and running a close second with sixty-eight votes was the outstanding courses offered in the field of particular interest to the student. The friendliness of the students and faculty came third with sixty-seven votes.

The GSCW catalog was the strongest publicity influence the students felt, with performances by the college choir, dramatic group, and other students coming next in importance.

The most important of the personal contact influences were those with students and alumnae of GSCW, and an actual visit to the campus.

A small, women's college was another influencing factor, as were the cost per year, absence of Saturday classes, absense of sororities, the recreational facilities. the religious influence, and the training of the faculty and relation of faculty to the student.

This information is very interesting and will aid the college in giving to the prospective GSCW student the information she most wants to know.

Recreation Association:

The voting for these three major offices will be held February 8th. Students will vote by classes? and the places of voting will be open till 5:00 that night. It is the duty of every GSCW student to take advantage of this opportunity and exercise her right and vote for her choice in this important election.

GSCW Institute To Offer Summer f '58." For those of you who would like Course in Spanish

This summer there will be a program of Spanish studies to parrell the program of English for foreign students which has been offered for the past 5 years at our GSCW Institute of Languages and Foreign Service. This program will be primarily for teachers and prospective teachers who want to prepare in a relatively short time to teach Spanish in the elementary schools. It will also appeal to other teachers of Spanish who want to gain a greater degree of fluency in the use of the language. The elementary course will be open to all beginners. Like the program of English for foreign students, the Spanish program ing. will be conducted on an intensive accelerated basis. All activities both academic and social will take place in the same building. Besides the classes there will be Spanish movies, social hours with games and songs and informal

conversations. The program will be under the direction of Mr. Mangiafico and at Miss Vicedomini. There will also be a staff of Spanish American native countries purposely to join the Institute staff for the summer.

A similar program of English for foreign students has proved most successful and brought attention to the method of teaching languages that Mr. Mangiafico has world's most beloved musical developed.

Camping out at our own Lake Laurel is one of the major thrills of the life of a GSCW girl. The boating, swimming, hiking, strolble decker beds as well as other numerous activities. This is one experience which you will not regret. Many campus groups, among them - the BSU, the foreign students and the Y, can tell you how much fun it is.

A "Jessie" is prepared for her role as a citizen through active paritcipation, in voting, and in college government; sportsmanship is also developed through Golden Slipper and the various tournaments which occur quarterly.

Modern dancers, lecturers as John Mason Brown, clothing classes which develop tastes in dressing, Sunday teas and coffees, field trips, the writing of a news article, the lovely blended voices of the A Cappella Choir singing with the college band, the reading of poetry by Dean Maxwell, Current Affairs at the "Y", big dances where Charlie Spivak's trumpet sends one floating and the college president wins the Charleston contest all of this is GSCW's culture, which aids the student in the understanding of society.

The training of the individual for further vocational competence has long ranked GSCW as one of the best academic schools in the South.

A cosdial welcome you high shoool senioss! This issue of the COLONNADE is for you, and since you are prospective college gals, we turn our "fashion thoughts" to the average Itssie's wearing apparel in hopes that you can find an idea or two for next year!

I believe everyone will agree with me in saying that one of the most important garments for the GSCW girl is rainwear. Not that we have an "excessive" amount of moisture from the sky, but it does get damp now and then, and you'll agree that those rubber boots aid in fording the numerous mud puddles. The idea of brightness to counteract the gloomy wtather actually works, and you'll find girls wearing raincoats of practically every color imaginable. The material for these raincoats vary everywhere from plastic to corduroy.

The typical dress for classes doesn't differ from the present high school dress. Socks, loafers, skirts, and sweaters are donned

throughout the dormitories and on campus; and are just the things to wear for that Saturday morning jaunt to the Student of Circular At Play Day Activities Union for coffee.

Of course, there are those extra special dress-up occasions when semi-formal and formal clothes are necessary. On Sunday the Jessie girl wears the regular church-going apparel, and then we have Appreciation Hour and the once-a-month, semi-formal dress for dinner that call for our dress-up clothes.

Best Yet To Come In Redecoration Of Arts Building

by Ruth Dixon

Have your meditations and ponderings over Shakespeare and Coleridge been interupted lately by the poundings of many hammers and the voices of the workmen behind them? The best is yet, to come, the noise is just one of the unpleasant things that must accompany the new face lifting job that is golng on over in the Arts Building.

Many of the rooms have been redecorated, some have had their entire appearance changed while others have been painted, had new flourescent lighting added and had wonderful new easy on the eye greenboards added to replace the us in years past.

So the next time a hammer grin and bear it, the best is yet to
